

# THE PHYSICS ANCILLARY

## The Ultimate Companion for the First Years of Physics

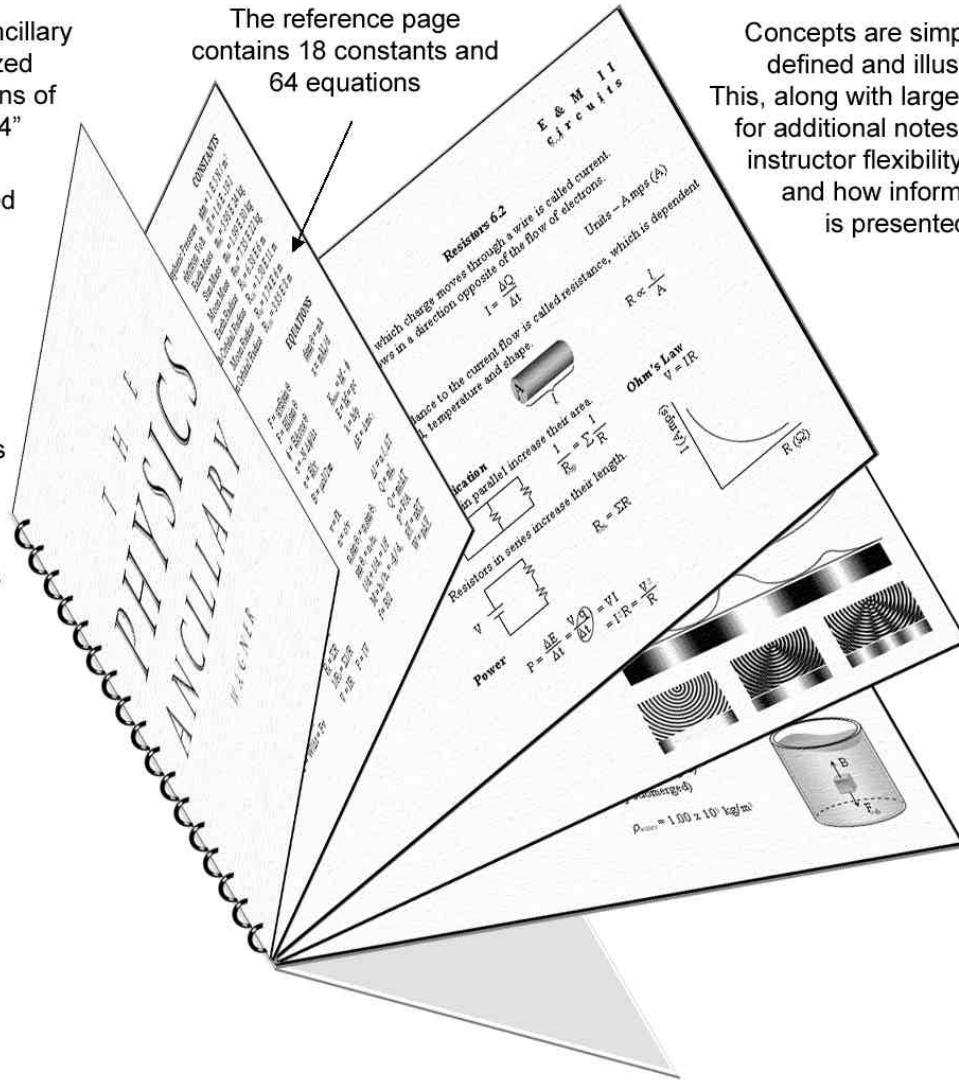

The Physics Ancillary is pocket sized with dimensions of 4" x 6" x 1/4"

The reference page contains 18 constants and 64 equations

Concepts are simplistically defined and illustrated. This, along with large 2" margins for additional notes, give the instructor flexibility in what and how information is presented.

Every page is printed on durable heavy stock paper with laminated front and back covers

There are 40 pages covering 36 concepts on Mechanics, E&M, Optics, Thermodynamics and Modern Physics

Visit <http://www.members.aol.com/judsonewagner/> for more information and updates.
